AUDIT

OF

UNDP PROGRAMME OF ASSISTANCE TO THE PALESTINIAN PEOPLE

KFW - POVERTY ORIENTED INFRASTRUCTURE - PHASES V, VI, VII, VIII, IX, X
(Directly Implemented Project No. 41098, Output Nos. 46774, 60764, 73017, 80762, 86843, 93278)

Report No. 1948
Issue Date: 15 August 2018
Report on the Audit of UNDP Programme of Assistance to the Palestinian People  
KFW – Poverty Oriented Infrastructure - Phases V, VI, VII, VIII, IX, X  
(Project No. 41098, Output Nos. 46774, 60764, 73017, 80762, 86843, 93278)  
Executive Summary

The UNDP Office of Audit and Investigations (OAI), through Talal Abu-Ghazaleh & Co. (the audit firm), from 30 April to 21 May 2018, conducted an audit of KFW – Poverty Oriented Infrastructure - Phases V, VI, VII, VIII, IX, X (Project No. 41098, Output Nos. 46774, 60764, 73017, 80762, 86843, 93278) (the Project), which is directly implemented and managed by the UNDP Programme of Assistance to the Palestinian People (the Office). The last audit of Output No. 86843 was conducted by OAI, through Talal Abu-Ghazaleh & Co. in 2015, and covered project expenses from 1 January to 31 December 2014. The last audit of Output Nos. 46774, 60764 and 73017 was conducted by OAI, through Moore Stephens LLP in 2016, and covered project expenses from 1 January to 31 December 2015. This was the first audit of Output Nos. 93278 and 80762.

The audit firm conducted a financial audit to express an opinion on whether the financial statements present fairly, in all material aspects, the Project’s operations. The audit covered the Project’s Combined Delivery Report (CDR), which includes expenses for the period from 1 January 2016 to 31 December 2017 and the accompanying Funds Utilization statement as of 31 December 2016 and 31 December 2017 as well as Statement of Assets as of 31 December 2016 and 31 December 2017. The audit did not cover the Statement of Cash Position as no separate bank account was established and maintained for the Project.

The audit was conducted under the general supervision of OAI in conformance with the International Standards for the Professional Practice of Internal Auditing.

Audit results

Based on the audit reports and corresponding management letters submitted by the audit firm, the results are summarized in the tables below:

*Expenses recorded in the CDR were $3.6 million for 2017.
**NFM = Net Financial Misstatement

Instead of following the corporate budget override policy, the Office was following an improper practice of borrowing Project funds from one output to another output, and of returning them at later stage, often in a different accounting period, thus creating overstatement of expenses in the receiving output and understatements of expenses in the lending output. OAI had already identified this issue in the past and raised recommendations to the Office (Report Nos. 1502 and 1646) but they have not been implemented. OAI will monitor the resolution of the audit issues through the new recommendations included in the current report. One of the key impacts of this practice is that expenses reported as spent to deliver a given output are misleading and by extension, the value of inputs attributed to the achievement of a given result is also misleading. It should be noted that the outputs are funded by the same donor.

The abovementioned practice led the audit firm to issue adverse opinions on project expenses of Output Nos. 46774, 60764, 73017, 80762 and 86843, and to qualify its opinion on project expenses of Output No. 93278, due to material NFM in the CDRs of 2016 and 2017.

Key recommendations: Total = 13, high priority = 11

The 13 recommendations aim to ensure the reliability and integrity of financial and operational information, and compliance with legislative mandates, regulations and rules, policies and procedures.

For high (critical) priority recommendations, prompt action is required to ensure that UNDP is not exposed to high risks. Failure to take action could result in major negative consequences for UNDP. The high (critical) priority recommendations are summarized and presented below:

Incorrect recording of expenses in the CDR Issue 1 (Output Nos. 46774, 60764, 73017, 80762, 86843, 93278)

The 2016 and 2017 CDR expenses were overstated by $427,000 and by $65,500, respectively, due to the use of Project funds from one output for expenses of another output (refer to total NFM presented under Tables 1 and 2).

Recommendation: The Office should (a) trace any funding or refunding to other projects in order to assess the impact on the Project’s CDR; (b) in case of inter-project transactions, ensure necessary reversals are made to the correct projects’ accounts and correct accounting periods; and (c) obtain the donor’s approval for transfers of project funds to other projects or phases.
Miscalculation of GMS Issue 2
(Output nos. 46774, 60764, 73017, 80762, 86843)

As a result of using Project funds from one output for expenses of another output, the GMS expenses did not correctly present the agreed upon rate of 7 and 8 percent according to the grant agreement. The base amount for calculating GMS included unrelated expenses and refunds, and thus resulted in either overstated or understated amounts in 2016 and 2017 (included in the respective NFM amounts presented under Tables 1 and 2).

Recommendation: The Office should recalculate the GMS in compliance with the terms of the grant agreement and reconcile the GMS in the same period.

Management comments and action plan

The Special Representative of the Administrator accepted all of the recommendations and is in the process of implementing them. Comments and/or additional information provided have been incorporated into the report, where appropriate.

Follow-up on Previous year audit recommendations:

The output ID 46774 “Small Scale Works and Employment 5 – Phase EGP V” was audited in 2016 for FY2015, audit report no.1646 issued on 14 October 2016 for the output ID 46774 “Small Scale Works and Employment 5 – Phase EGP V” for the period from 1 January to 31 December 2015 included the following recommendation:

The recommendation raised was as follows:

<table>
<thead>
<tr>
<th>Recommendation title</th>
<th>Implementation status</th>
</tr>
</thead>
<tbody>
<tr>
<td>The expenditure relating to output ID 46774 amounting to USD 468,516.46 was recorded in the CDR of output ID 60764 understanding the expenditure reported for the output ID 46774. We recommend that the office should record expenditure in the correct output.</td>
<td>Not implemented. Recommendation is still valid, and the same recommendation was raised in the current audit report.</td>
</tr>
</tbody>

Ramallah – Palestine, 26 July 2018
Financial audit of Project ID 41098 – Output ID: 46774 “Small Scale Works and Employment 5 – Phase EGP V” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

1.2. Audit objectives

A. The objective of the financial audit is to express an opinion on the project’s financial position which include:

1) Expressing an opinion on whether the expenses incurred by the Project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017 and the funds utilization, the accounts receivable and the accounts payable as at 31 December 2016 and as at 31 December 2017 were fairly presented in accordance with UNDP accounting policies and that the expenses incurred were: (i) in conformity with the approved project budgets; (ii) for the approved purposes of the project; (iii) in compliance with the relevant regulations and rules, policies and procedures of UNDP; and (iv) supported by properly approved vouchers and other supporting documents. The Combined Delivery Report (CDR) and the accompanying Funds Utilization statement are the mandatory and official statements upon which the audit opinion should be expressed. Other forms of statement of expenses that may be prepared by a project office are not accepted.

2) Expressing an opinion on whether the statement of fixed assets, at net book value, presents fairly the balance of depreciated assets of the UNDP Project as at 31 December 2016 and as at 31 December 2017. This statement should include all assets available as at 31 December 2016 and as at 31 December 2017 and not only those purchased in the year under audit. Where a DIM project does not have any assets or equipment it will not be necessary to express such an opinion, and

3) Expressing an opinion on whether the statement of cash held by the Project presents fairly the cash and bank balance of UNDP Project as at 31 December 2016 and as at 31 December 2017. Disbursements made against directly implemented project, DIM project are usually financed from the regular country office bank accounts. Exceptionally, a dedicated bank account may be opened and used solely for the cash transactions of a DIM project, e.g. if the project is in a remote location. It is required to express an opinion on the Statement of Cash only where a dedicated bank account for the DIM project has been established. In cases where the cash transactions of the audited DIM project are made through the country office bank accounts, this type of opinion is not required.

B. Providing the progress made in implementing the recommendations raised in a previous year audit report (if any).

The financial audit was conducted in accordance with the International Standards on Auditing (ISA), the 700 series
1.3. **Scope of Audit:**

The scope of the audit relates only to transactions concluded and recorded against the UNDP DIM project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

The scope of the audit did not include:

- Activities and expenses incurred or undertaken at the level of “responsible parties”; and

- Expenses processed and approved in locations outside the country such as UNDP Regional Centres and UNDP Headquarters and where the supporting documentation is not retained at the level of the UNDP office.
PART II – FINANCIAL AUDIT REPORTS

2.1. Auditor’s Report on Financial Position for the year 2017

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 output ID 46774 “Small Scale Works Employment 5 – Phase EGP V”, for the period from 1 January to 31 December 2017, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying CDR and Funds Utilization statement do not present fairly the expenses of USD 502,604.37 directly incurred by the UNDP PAPP and charged to the project for the period from 1 January to 31 December 2017.

Basis for Adverse Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- The total current Combined Delivery Report (CDR) is materially overstated by an amount of USD 466,558 due to funding and refunding of some amounts from or to other phases presented in account No. 72105 and account No.71405 in the CDR in addition to the miscalculation of the GMS.

Management Responsibilities

Management is responsible for the preparation and fair presentation of the of the CDR and the Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
Auditor’s Responsibilities

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

2.3. Auditor’s Report on Financial Position for the year 2016

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 output ID 46774 “Small Scale Works Employment 5 – Phase EGP V”, for the period from 1 January to 31 December 2016, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion
In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying CDR and Funds Utilization statement do not present fairly the expenses of USD 168,844.12 and directly incurred by the UNDP PAPP and charged to the project for the period from 1 January to 31 December 2016.

Basis for Adverse Opinion
We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- The total current Combined Delivery Report (CDR) is materially overstated by an amount of USD 162,898.39 due to reversals presented in account No. 72105 in the CDR in addition to the miscalculation of the GMS.

Management Responsibilities
Management is responsible for the preparation and fair presentation of the of the CDR and the Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
**Auditor’s Responsibilities**

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

3. PART III: MANAGEMENT LETTER

3.1 Current years audit findings and recommendations

To the Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

Introduction

Under International Standards on Auditing, auditors are encouraged to report various matters concerning an entity’s internal control structure noted during their audit, and are required to report certain of those matters. Matters that are required to be reported are “significant deficiencies in the design or operation of the internal control structure that, in the auditor’s judgment, could adversely affect the entity’s ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.”

As part of our audit of the Project’s financial position of the Project ID 41098, output ID 46774 “Small Scale Works Employment 5 – Phase EGP V” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017, we considered UNDP’s internal control structure and compliance with its accounting policies in determining the scope of our audit procedures for the purpose of rendering an opinion on the financial statements. Our purpose was not to provide assurance on the internal control structure.

We emphasize that the responsibility for a sound system of internal controls rests with management and work performed by external audit should not be relied upon to identify all strengths and weaknesses that may exist. Neither should our work be relied upon to identify all circumstances of irregularity should there be any, although our audit procedures have been designed so that any material irregularity has a reasonable probability of discovery.

The matters raised in this part are those which came to our attention during the audit and are not necessarily a comprehensive statement of all the weaknesses that exist or all improvements that might be needed. Recommendations for improvements should be assessed by management for their full commercial impact before they are implemented. Effective implementation of our recommendations by management is important for the maintenance of a reliable internal control system.

Acknowledgment

We wish to express our appreciation for the courtesy and cooperation extended to our representatives during the course of their work.

Jamal Milhem, CPA

Ramallah – Palestine, 26 July 2018
Financial audit of Project ID 41098 – Output ID: 46774 “Small Scale Works and Employment 5 – Phase EGP V” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

Finding 1: (applicable for the year 2017)

Title:
Un-related expenses and refunds in the current CDR.

Criteria:
UNDP Programme and Operations Policies and Procedures (POPP) stating that Combined Delivery Report (CDR) should display expenses directly incurred by UNDP on behalf of the project. In addition to that, according to the general conditions of the agreement signed between the UNDP PAPP and KfW, UNDP PAPP will receive General Management Support (GMS) for implementing the project activities in different percentages based on the activates.

Observation
During the audit, we noticed that, in the previous years, EGP phase V had utilized the funds of EGP phase VI for construction activities by USD 468,516 and had utilized the funds of EGP phase VI and EGP phase X for salaries expenses by USD 137,504 while they were revised when refunded during 2017. In addition, EGP phase VI and EGP phase IX had utilized the available funds of EGP phase V while the reversals were not made in the same accounting period for the outputs of these phases to present the correct expenses, instead, reversals were made during 2017 by USD (139,462).

This led to overstating the output ID 46774 expenses in 2017 by USD 466,558 and overstatement the GMS expense by USD 36,046.

- Details of reversals transactions

Financial audit of Project ID 41098 – Output ID: 46774 “Small Scale Works and Employment 5 – Phase EGP V” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

This was caused by:

a- Shortage in the available funds in EGP phase VI, EGP phase IX and EGP phase X when payments were due.

b- Transfers to cover the shortages in EGP phase V, EGP phase VI, EGP phase IX and EGP phase X were recorded as expenses in the output from which transfers are made and reversals transactions are made when the amounts are refunded.

This has affected the fair statement of expenses in the current year CDR. Moreover, aforementioned reversals also led to not presenting the correct total construction measures for each accounting period used on which calculations of GMS are made.

**Priority**

High (critical).

**Recommendation**

The Office should:

a. Trace any funding or refunding to other projects in order to assess the impact on the project’s CDR.

b. In case of inter-project transactions, ensure necessary reversals are made to the correct projects' accounts and correct accounting periods.

c. Recalculate the GMS in compliance with terms of the grant agreement.

**Management’s Response:**

All reversals have been undertaken where all charges are made accordingly against the correct project phase. UNDP through its internal monitoring mechanism is able to trace all funding and/or refunding of other projects. When closing phases 5 through 9, the donor was aware that UNDP was closing all pending reversals and payments based upon the final contribution deposits that were made by the donor. All reversals were made, including those related to salaries which the donor was aware of and shared with the audit team. In the future, UNDP will be in a position to override in ATLAS and avoid the need to do cumbersome reversals.

**Auditor’s response:**

Our recommendation is still valid
Finding 2: (applicable for the year 2016)

Title:
Un-related reversals in the current CDR.

Criteria:
UNDP Programme and Operations Policies and Procedures (POPP) stating that Combined Delivery Report (CDR) should display expenses directly incurred by UNDP on behalf of the project. In addition to that, according to the general conditions of the agreement signed between the UNDP/PAPP and KfW, UNDP/PAPP will receive General Management Support (GMS) for implementing the project activities in different percentages based on the activates.

Observation
During the audit, we noticed that, in the previous years, EGP phase V had utilized the fund of EGP phase IX for construction activities by USD 162,898 while they were revised when refunded during 2017.

This led to overstating the output ID 46774 expenses in 2016 by USD 162,898 and overstating the GMS expense by USD 5,828.

This was caused by:
a- Shortage in the available funds in EGP phase V when payments were due.
b- Transfers to cover the shortages in EGP phase V were recorded as expenses in the output from which transfers are made and reversals transactions are made when the amounts are refunded.

This has affected the fair statement of expenses in the current year CDR. Moreover, aforementioned reversals also led to not presenting the correct total construction measures for each accounting period used on which calculations of GMS are made.

Priority
High (critical).

Recommendation
The Office should:
a. Trace any funding or refunding to other projects in order to assess the impact on the project’s CDR.
b. In case of inter-project transactions, ensure necessary reversals are made to the correct projects' accounts and correct accounting periods.
c. Recalculate the GMS in compliance with terms of grant agreement.

Management’s Response:
The difference is based upon the reconciliation of all phases including GMS, your comment is noted, and UNDP will ensure avoiding any similar situation in the future. Due to the accounting system we utilize, GMS is calculated against the entire project. Only during the following year when the CDR for the project is presented in final format, we can do a correction pertaining to the GMS.

Auditor’s response:
Our recommendation is still valid
Priorities of Audit Recommendations

Follow-up on Previous year audit recommendations:

The output ID 60764 “Small Scale Works and Employment 6 – Phase EGP VI” was audited in 2016 for FY2015. Audit report no.1646 issued on 14 October 2016 for the output ID 60764 “Small Scale Works and Employment 6 – Phase EGP VI” for the period from 1 January to 31 December 2015 included the following recommendation:

The recommendation raised was as follows:

<table>
<thead>
<tr>
<th>Recommendation title</th>
<th>Implementation status</th>
</tr>
</thead>
<tbody>
<tr>
<td>The expenditure amounting USD 971,915 was incorrectly recorded in the CDR of output 60764 overstating the expenditure for this output.</td>
<td>Not implemented. Recommendation is still valid, and the same recommendation was given in the current audit report.</td>
</tr>
</tbody>
</table>

1.2. Audit objectives

A. The objective of the financial audit is to express an opinion on the project’s financial position which include:

1) Expressing an opinion on whether the expenses incurred by the Project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017 and the funds utilization, the accounts receivable and the accounts payable as at 31 December 2016 and as at 31 December 2017 were fairly presented in accordance with UNDP accounting policies and that the expenses incurred were: (i) in conformity with the approved project budgets; (ii) for the approved purposes of the project; (iii) in compliance with the relevant regulations and rules, policies and procedures of UNDP; and (iv) supported by properly approved vouchers and other supporting documents. The Combined Delivery Report (CDR) and the accompanying Funds Utilization statement are the mandatory and official statements upon which the audit opinion should be expressed. Other forms of statement of expenses that may be prepared by a project office are not accepted.

2) Expressing an opinion on whether the statement of fixed assets, at net book value, presents fairly the balance of depreciated assets of the UNDP Project as at 31 December 2016 and as at 31 December 2017. This statement should include all assets available as at 31 December 2016 and as at 31 December 2017 and not only those purchased in the year under audit. Where a DIM project does not have any assets or equipment it will not be necessary to express such an opinion, and

3) Expressing an opinion on whether the statement of cash held by the Project presents fairly the cash and bank balance of UNDP Project as at 31 December 2016 and as at 31 December 2017. Disbursements made against directly implemented project, DIM project are usually financed from the regular country office bank accounts. Exceptionally, a dedicated bank account may be opened and used solely for the cash transactions of a DIM project, e.g. if the project is in a remote location. It is required to express an opinion on the Statement of Cash only where a dedicated bank account for the DIM project has been established. In cases where the cash transactions of the audited DIM project are made through the country office bank accounts, this type of opinion is not required.

B. Providing the progress made in implementing the recommendations raised in a previous year audit report (if any).

The financial audit was conducted in accordance with the International Standards on Auditing (ISA), the 700 series.
1.3. Scope of Audit:

The scope of the audit relates only to transactions concluded and recorded against the UNDP DIM project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

The scope of the audit did not include:

- Activities and expenses incurred or undertaken at the level of “responsible parties”; and
- Expenses processed and approved in locations outside the country such as UNDP Regional Centres and UNDP Headquarters and where the supporting documentation is not retained at the level of the UNDP office.
2. PART II – FINANCIAL AUDIT REPORTS

2.1. Auditor’s Report on Financial Position for the year 2017

Independent Auditor’s Report on the Project Financial position of UNDP DIM Project ID 41098 – Output ID 60764 “Small Scale Works and Employment 6 - Phase EGP VI”

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 - output ID 60764 “Small Scale Works and Employment 6 - Phase EGP VI”, for the period from 1 January to 31 December 2017, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying CDR and Funds Utilization statement of Cr. Balance (87,845.18) do not present fairly the expenses directly incurred by the UNDP PAPP and charged to the project for the period from 1 January to 31 December 2017.

Basis for Adverse Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- The total of current Combined Delivery Report (CDR) is understated by USD (87,397) due to funding and refunding of some amounts from or to other phases presented in account No. 72105 and account No.71405 in the CDR in addition to the miscalculation of the GMS.

Management Responsibilities

Management is responsible for the preparation and fair presentation of the of the CDR and the Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
Financial audit of Project ID 41098 – Output ID: 60764 “Small Scale Works and Employment 6 - Phase EGP VI” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

Auditor’s Responsibilities

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Deputy Team Leader - Gov. Nader Attia
KFW Project Manager - Line Kort Seraphin

23 May 2018
2.3. Auditor’s Report on Financial Position for the year 2016

Independent Auditor’s Report on the Project Financial position of UNDP DIM Project ID 41098 – Output ID 60764 “Small Scale Works and Employment 6 - Phase EGP VI”

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 output ID 60764 “Small Scale Works and Employment 6 - Phase EGP VI”, for the period from 1 January to 31 December 2016, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying CDR and Funds Utilization statement do not present fairly the expenses of USD 230,869.02 for 2016 and directly incurred by the UNDP PAPP and charged to the project for the period from 1 January to 31 December 2016.

Basis for Adverse Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- The current GMS included in the CDR were not correctly calculated according to signed agreement (i.e. 8% of construction measures) which led to materially overstatement of the GMS in the current CDR by an amount of USD 228,823.

Management Responsibilities

Management is responsible for the preparation and fair presentation of the of the CDR and the Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
Financial audit of Project ID 41098 – Output ID: 60764 “Small Scale Works and Employment 6 - Phase EGP VI” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

**Auditor’s Responsibilities**

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

3. PART III: MANAGEMENT LETTER

3.1 Current years audit findings and recommendations

To the Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

Introduction

Under International Standards on Auditing, auditors are encouraged to report various matters concerning an entity’s internal control structure noted during their audit, and are required to report certain of those matters. Matters that are required to be reported are “significant deficiencies in the design or operation of the internal control structure that, in the auditor’s judgment, could adversely affect the entity’s ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.”

As part of our audit of the Project’s financial position of the Project ID 41098 - output ID 60764 “Small Scale Works and Employment 6 - Phase EGP VI” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017, we considered UNDP’s internal control structure and compliance with its accounting policies in determining the scope of our audit procedures for the purpose of rendering an opinion on the financial statements. Our purpose was not to provide assurance on the internal control structure.

We emphasize that the responsibility for a sound system of internal controls rests with management and work performed by external audit should not be relied upon to identify all strengths and weaknesses that may exist. Neither should our work be relied upon to identify all circumstances of irregularity should there be any, although our audit procedures have been designed so that any material irregularity has a reasonable probability of discovery.

The matters raised in this part are those which came to our attention during the audit and are not necessarily a comprehensive statement of all the weaknesses that exist or all improvements that might be needed. Recommendations for improvements should be assessed by management for their full commercial impact before they are implemented. Effective implementation of our recommendations by management is important for the maintenance of a reliable internal control system.

Acknowledgment

We wish to express our appreciation for the courtesy and cooperation extended to our representatives during the course of their work.

Finding 1: (applicable for the year 2017)

Title:
Un-related expenses and refunds in the current CDR.

Criteria:
UNDP Programme and Operations Policies and Procedures (POPP) stating that the Combined Delivery Report (CDR) should display expenses directly incurred by UNDP on behalf of the project. In addition, the general conditions of the agreement signed between the UNDP/PAPP and KfW (annex 2) stating that the General Management Support (GMS) should be 8% of construction measures.

Observation
During the audit, we noticed that, in the previous years, EGP phase VI had utilized the funds in EGP phase V and EGP phase X for construction activities by USD 120,575 and utilized the fund in EGP phase VIII, EGP phase IX and EGP phase X for salaries expenses by USD 763,943 while they were revised when refunded during 2017. In addition, EGP phase V, EGP phase VIII and EGP phase IX utilized the available funds in EGP phase VI fund while the reversals were not made in the same accounting period for the outputs of these phases to present the correct expenses, instead, reversals were made during 2017 by USD (971,915). Accordingly, there were General Management Support (GMS) reversals (understatement) by USD (10,965) leading to non-compliance with the GMS calculation as per the signed agreement.

The Net Financial Impact of the above is understating of the CDR by USD (98,362)

<td><strong>(98,362)</strong></td>
<td></td>
</tr>
</tbody>
</table>

16
This was caused by:

a- Shortage in the available funds in EGP phase V, phase VI, phase VIII and phase IX when payments were due.

b- Transfers to cover the shortages in EGP phase V, phase VI, phase VIII, phase IX and phase X were recorded as expenses in the output from which transfers are made and reversals transactions are made when the amounts are refunded.

This has affected the fair statement of expenses in the current year CDR and considered a noncompliance with funding agreements. Moreover, aforementioned reversals also led to not presenting the correct total construction measures for each accounting period used on which calculations of GMS are made.

**Priority**

High (critical).

**Recommendation**

The Office should:

a. Trace any funding or refunding to other projects in order to assess the impact on the project’s CDR.

b. In case of inter-project transactions, ensure necessary reversals are made to the correct projects' accounts and correct accounting periods.

c. Recalculate the GMS in compliance with terms of grant agreement.

**Management’s Response:**

All reversals have been undertaken where all charges are made accordingly against the correct project phase. UNDP through its internal monitoring mechanism is able to trace all funding and/or refunding of other projects. When closing phases 5 through 9, the donor was aware that UNDP was closing all pending reversals and payments based upon the final contribution deposits that were made by the donor. All reversals were made, including those related to salaries which the donor was aware of and shared with the audit team. In the future, UNDP will be in a position to override in ATLAS and avoid the need to do cumbersome reversals.

**Auditor’s response:**

Our recommendation is still valid
Financial audit of Project ID 41098 – Output ID: 60764 “Small Scale Works and Employment 6 - Phase EGP VI” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

**Finding 2: (applicable for the year 2016)**

**Title:**
Miscalculation of General Management Support (GMS).

**Criteria:**
The general conditions of the agreement signed between the UNDP PAPP and KfW (annex 2) stating that the GMS should be 8% of construction measures.

**Observation**
During our audit, we noticed that the GMS expenses did not present correctly 8% of the construction measures according to the donor agreement.

Since the amount of construction in 2016 CDR is Zero, the amount of the GMS in the current CDR should be equal to Zero. However, the amount of the GMS that appears in the Current CDR is USD 228,823.

The reason for this miscalculation is that the General Management Support (Account No. 75105) in the CDR includes a transaction that does not belong to 2016, leading to not providing the correct calculations of GMS.

Noncompliance with the agreement conditions and not making reconciliation of GMS in the same period led to overstatement of expenses in the current CDR by USD 228,823.

**Priority**
High (Critical)

**Recommendation**
The Office should recalculate the GMS in compliance with terms of the grant agreement, and make the GMS reconciliation in the same period.

**Management’s Response:**
The difference is based upon the reconciliation of all phases including GMS, your comment is noted, and UNDP will ensure avoiding any similar situation in the future. Due to the accounting system we utilize, GMS is calculated against the entire project. Only during the following year when the CDR for the project is presented in final format, we can do a correction pertaining to the GMS.

**Auditor’s response:**
Our recommendation is still valid
Financial audit of Project ID 41098 – Output ID: 60764 “Small Scale Works and Employment 6 - Phase EGP VI” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

### Priorities of Audit Recommendations

<table>
<thead>
<tr>
<th>Priority</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>High (Critical)</td>
<td>Prompt action is required to ensure that UNDP is not exposed to high risks. Failure to take action could result in major negative consequences for UNDP.</td>
</tr>
<tr>
<td>Medium (Important)</td>
<td>Action is required to ensure that UNDP is not exposed to risks. Failure to take action could result in negative consequences for UNDP.</td>
</tr>
<tr>
<td>Low</td>
<td>Action is desirable and should result in enhanced control or better value for money. Low priority recommendations, if any, are dealt with by the audit team directly with the Office management, either during the exit meeting or through a separate memo subsequent to the fieldwork. Therefore, low priority recommendations are not included in this report.</td>

Follow-up on Previous year audit recommendations:
The output ID 73017 “Small Scale Works and Employment 5 – Phase EGP V” was audited in 2016 for FY2015. The previous audit report no.1646 issued on 14 October 2016 for the output ID 73017 “Small Scale Works and Employment 5 – Phase EGP V” for the period from 1 January to 31 December 2015 did not result in any recommendations.

Sincerely yours,

Jamal Milhem, CPA
Certified Accountant License # (100/98)

License No. 251/1997
Ramallah - Palestine, 26 July 2018
1.2. **Audit objectives**

A. The objective of the financial audit is to express an opinion on the project’s financial position which include:

1) Expressing an opinion on whether the expenses incurred by the Project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017 and the funds utilization, the accounts receivable and the accounts payable as at 31 December 2017 and as at 31 December 2016 were fairly presented in accordance with UNDP accounting policies and that the expenses incurred were: (i) in conformity with the approved project budgets; (ii) for the approved purposes of the project; (iii) in compliance with the relevant regulations and rules, policies and procedures of UNDP; and (iv) supported by properly approved vouchers and other supporting documents. The Combined Delivery Report (CDR) and the accompanying Funds Utilization statement are the mandatory and official statements upon which the audit opinion should be expressed. Other forms of statement of expenses that may be prepared by a project office are not accepted.

2) Expressing an opinion on whether the statement of fixed assets, at net book value, presents fairly the balance of depreciated assets of the UNDP Project as at 31 December 2016 and as at 31 December 2017. This statement should include all assets available as at 31 December 2016 and as at 31 December 2017 and not only those purchased in the year under audit. Where a DIM project does not have any assets or equipment it will not be necessary to express such an opinion, and

3) Expressing an opinion on whether the statement of cash held by the Project presents fairly the cash and bank balance of UNDP Project as at 31 December 2016 and as at 31 December 2017. Disbursements made against directly implemented project, DIM project are usually financed from the regular country office bank accounts. Exceptionally, a dedicated bank account may be opened and used solely for the cash transactions of a DIM project, e.g. if the project is in a remote location. It is required to express an opinion on the Statement of Cash only where a dedicated bank account for the DIM project has been established. In cases where the cash transactions of the audited DIM project are made through the country office bank accounts, this type of opinion is not required.

B. Providing the progress made in implementing the recommendations raised in a previous year audit report (if any).

The financial audit was conducted in accordance with the International Standards on Auditing (ISA), the 700 series
1.3. Scope of Audit:

The scope of the audit relates only to transactions concluded and recorded against the UNDP DIM project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

The scope of the audit did not include:

- Activities and expenses incurred or undertaken at the level of “responsible parties”; and

- Expenses processed and approved in locations outside the country such as UNDP Regional Centres and UNDP Headquarters and where the supporting documentation is not retained at the level of the UNDP office.
2. PART II – FINANCIAL AUDIT REPORTS

2.1. Auditor’s Report on Financial Position for the year 2017:

To the Director of the Office of Audit and Investigations (OAI) United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 output ID 73017 “Small Scale Works and Employment 7 - Phase EGP VII”, for the period from 1 January to 31 December 2017, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying CDR and Funds Utilization statement do not present fairly the expenses of USD (124,335.97) directly incurred by the UNDP PAPP and charged to the project for the period for the period from 1 January to 31 December 2017.

Basis for Adverse Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- The total of Current Combined Delivery Report (CDR) is materially understated by USD (124,336) due to refunding amounts from other phases.
- The current GMS expenses included in the CDR were not correctly calculated according to signed agreement (i.e. 7% of construction measures), which led to understate the GMS expenses in the current CDR by USD (6,620).

Management Responsibilities

Management is responsible for the preparation and fair presentation of the of the CDR and the Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
Auditor’s Responsibilities

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

2.3. Auditor’s Report on Financial Position for the year 2016:

To the Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 output ID 73017 “Small Scale Works and Employment 7 - Phase EGP VII”, for the period from 1 January to 31 December 2016, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying CDR and Funds Utilization statement do not present fairly the expenses of USD 20,459.81 directly incurred by the UNDP PAPP and charged to the project for the period for the period from 1 January to 31 December 2016.

Basis for Adverse Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

– The current GMS expenses included in the CDR were not correctly calculated according to signed agreement (i.e. 7% of construction measures) which led to overstate the GMS expenses in the current CDR by USD 20,459.81.

Management Responsibilities

Management is responsible for the preparation and fair presentation of the CDR and the Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
Auditor’s Responsibilities

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

3. PART III: MANAGEMENT LETTER

3.1 Current years audit findings and recommendations

To the Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

Introduction

Under International Standards on Auditing, auditors are encouraged to report various matters concerning an entity’s internal control structure noted during their audit, and are required to report certain of those matters. Matters that are required to be reported are “significant deficiencies in the design or operation of the internal control structure that, in the auditor’s judgment, could adversely affect the entity’s ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.”

As part of our audit of the Project’s financial position of the Project ID 41098, output ID 73017 “Small Scale Works and Employment 7 - Phase EGP VII” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017, we considered UNDP’s internal control structure and compliance with its accounting policies in determining the scope of our audit procedures for the purpose of rendering an opinion on the financial statements. Our purpose was not to provide assurance on the internal control structure.

We emphasize that the responsibility for a sound system of internal controls rests with management and work performed by external audit should not be relied upon to identify all strengths and weaknesses that may exist. Neither should our work be relied upon to identify all circumstances of irregularity should there be any, although our audit procedures have been designed so that any material irregularity has a reasonable probability of discovery.

The matters raised in this part are those which came to our attention during the audit and are not necessarily a comprehensive statement of all the weaknesses that exist or all improvements that might be needed. Recommendations for improvements should be assessed by management for their full commercial impact before they are implemented. Effective implementation of our recommendations by management is important for the maintenance of a reliable internal control system.

Acknowledgment

We wish to express our appreciation for the courtesy and cooperation extended to our representatives during the course of their work.

Jamal Milhem, CPA
Certified Accountant License # (100/98)
Talal Abu –Ghazaleh & Co.
License No. 251/1997
Ramallah – Palestine, 26 July 2018
Financial audit of Project ID 41098 – Output ID: 73017 “Small Scale Works and Employment 7 - Phase EGP VII” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017

Finding 1: (Applicable for the year 2017).

Title:
Un-related refunds in the current CDR.

Criteria:
UNDP Programme and Operations Policies and Procedures (POPP) states that the Combined Delivery Report (CDR) should display expenses directly incurred by UNDP on behalf of the project. In addition, the general conditions of the agreement signed between the UNDP PAPP and KFW (annex 2) stating that the General Management Support (GMS) should be 7% of construction measures.

Observation
During the audit, we noticed that, in the previous years, EGP Phase VIII had utilized the available funds in EGP phase VII while the refunds were not made in the same accounting period for EGP phase VII to present the correct expenses, instead, refunds were made during 2017 by USD (124,336), affecting the presentation of the expenses and the calculation of the GMS by USD (6,620), which also led to non-compliance with the calculation as per the signed agreement.

The Net Financial Impact of the above is understatement of the CDR by USD (130,956).

This was caused by:
a- Shortage in the available funds in EGP phase VIII when payments were due.
b- Transfers to cover the shortages in EGP phase VIII were recorded as expenses in the output from which transfers are made and reversals transactions are made when the amounts are refunded.

This has affected the fair statement of expenses in the current year CDR. Moreover, aforementioned reversals also led to not presenting the correct total construction measures for each accounting period used on which calculations of GMS are made.

Priority
High (critical).

Recommendation
The Office should:
a. Trace any funding or refunding to other projects in order to assess the impact on the project’s CDR.
b. In case of inter-project transactions, ensure necessary reversals are made to the correct projects' accounts and correct accounting periods.
c. Recalculate the GMS in compliance with terms of grant agreement.
Management’s Response:

All reversals have been undertaken where all charges are made accordingly against the correct project phase. UNDP through its internal monitoring mechanism is able to trace all funding and/or refunding of other projects. When closing phases 5 through 9, the donor was aware that UNDP was closing all pending reversals and payments based upon the final contribution deposits that were made by the donor. All reversals were made, including those related to salaries which the donor was aware of and shared with the audit team. However, it should be noted that once funds have been received by the donor, all charges were correctly recorded against the proper project.

Auditor’s response:

Our recommendation is still valid
Finding 2: (Applicable for the year 2016).

Title:
Miscalculation of General Management Support (GMS).

Criteria:
The general conditions of the agreement signed between the UNDP PAPP and KFW (annex 2) stating that the GMS should be 7% of construction measures.

Observation
During our audit, we noticed that the GMS expenses did not present correctly 7% of the construction measures according to the project agreement.

Since the amount of construction in 2016 CDR is Zero, the amount of the GMS in the current CDR should equal to Zero. However, the amount of the GMS that appears in the Current CDR is USD 20,460 due to GMS reversals.

The reason for this miscalculation is that the General Management Support (Account No. 75105) in the CDR includes transactions that do not belong to 2016, leading to not providing the correct calculations of GMS.

Noncompliance with agreement conditions and not making reconciliation of GMS in the same period led to overstatement of expenses in the current CDR by USD 20,460.

Priority
High (Critical)

Recommendation
The Office should recalculate the GMS in compliance with terms of grant agreement, and make the GMS reconciliation in the same period.

Management’s Response:
The difference is based upon the reconciliation of all phases including GMS, your comment is noted and UNDP will ensure avoiding any similar situation in the future. Due to the accounting system we utilize, GMS is calculated against the entire project. Only during the following year when the CDR for the project is presented in final format, we can do a correction pertaining to the GMS.

Auditor’s response:
Our recommendation is still valid
### Priorities of Audit Recommendations

<table>
<thead>
<tr>
<th>High (Critical)</th>
<th>Prompt action is required to ensure that UNDP is not exposed to high risks. Failure to take action could result in major negative consequences for UNDP.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medium (Important)</td>
<td>Action is required to ensure that UNDP is not exposed to risks. Failure to take action could result in negative consequences for UNDP.</td>
</tr>
<tr>
<td>Low</td>

Ramallah - Palestine, 26 July 2018
1.2. Audit objectives

A. The objective of the financial audit is to express an opinion on the project’s financial position which include:

1) Expressing an opinion on whether the expenses incurred by the Project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017 and the funds utilization, the accounts receivable and the accounts payable as at 31 December 2016 and as at 31 December 2017 were fairly presented in accordance with UNDP accounting policies and that the expenses incurred were: (i) in conformity with the approved project budgets; (ii) for the approved purposes of the project; (iii) in compliance with the relevant regulations and rules, policies and procedures of UNDP; and (iv) supported by properly approved vouchers and other supporting documents. The Combined Delivery Report (CDR) and the accompanying Funds Utilization statement are the mandatory and official statements upon which the audit opinion should be expressed. Other forms of statement of expenses that may be prepared by a project office are not accepted.

2) Expressing an opinion on whether the statement of fixed assets, at net book value, presents fairly the balance of depreciated assets of the UNDP Project as at 31 December 2016 and as at 31 December 2017. This statement should include all assets available as at 31 December 2016 and as at 31 December 2017 and not only those purchased in the year under audit. Where a DIM project does not have any assets or equipment it will not be necessary to express such an opinion, and

3) Expressing an opinion on whether the statement of cash held by the Project presents fairly the cash and bank balance of UNDP Project as at 31 December 2016 and as at 31 December 2017. Disbursements made against directly implemented project, DIM project are usually financed from the regular country office bank accounts. Exceptionally, a dedicated bank account may be opened and used solely for the cash transactions of a DIM project, e.g. if the project is in a remote location. It is required to express an opinion on the Statement of Cash only where a dedicated bank account for the DIM project has been established. In cases where the cash transactions of the audited DIM project are made through the country office bank accounts, this type of opinion is not required.

B. Providing the progress made in implementing the recommendations raised in a previous year audit report (if any).

The financial audit was conducted in accordance with the International Standards on Auditing (ISA), the 700 series
1.3. Scope of Audit:

The scope of the audit relates only to transactions concluded and recorded against the UNDP DIM project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

The scope of the audit did not include:

- Activities and expenses incurred or undertaken at the level of “responsible parties”; and

- Expenses processed and approved in locations outside the country such as UNDP Regional Centres and UNDP Headquarters and where the supporting documentation is not retained at the level of the UNDP office.
2. PART II – FINANCIAL AUDIT REPORTS

2.1. Auditor’s Report on Financial Position for the year 2017

Independent Auditor’s Report on the Project Financial position
Of UNDP DIM Project ID 41098 – Output ID 80762
“Small Scale Works and Employment 8 - Phase EGP VIII”

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 output ID 80762 “Small Scale Works and Employment 8 - Phase EGP VIII”, for the period from 1 January to 31 December 2017, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion
In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying CDR and Funds Utilization statement do not present fairly the expenses of USD 506.62 directly incurred by the UNDP PAPP and charged to the project for the period from 1 January to 31 December 2017.

Basis for Adverse Opinion
We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- The total of current Combined Delivery Report (CDR) is overstated by USD 473.48 (Net) due to funding other phases presented in account No. 71405 by USD 614,150.48 and refunding from other phases presented in account No. 72105 by USD (613,677). In addition to miscalculation of the GMS.

Management Responsibilities
Management is responsible for the preparation and fair presentation of the of the CDR and the Funds Utilization Statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
Auditor’s Responsibilities

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

23 May 2018
2.3. Auditor’s Report on Financial Position for the year 2016

Independent Auditor’s Report on the Project Financial position
Of UNDP DIM Project ID 41098 – Output ID 80762
“Small Scale Works and Employment 8 - Phase EGP VIII”

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 output ID 80762 “Small Scale Works and Employment 8 - Phase EGP VIII”, for the period from 1 January to 31 December 2016, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion section of our report, the accompanying CDR and Funds Utilization statement do not present fairly the expenses of USD 65,865 and directly incurred by the UNDP PAPP and charged to the project for the period from 1 January to 31 December 2016.

Basis for Adverse Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management Responsibilities

Management is responsible for the preparation and fair presentation of the of the CDR and the Funds Utilization Statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
Auditor’s Responsibilities

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

3. PART III: MANAGEMENT LETTER

3.1 Current years audit findings and recommendations

To the Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

Introduction

Under International Standards on Auditing, auditors are encouraged to report various matters concerning an entity’s internal control structure noted during their audit, and are required to report certain of those matters. Matters that are required to be reported are “significant deficiencies in the design or operation of the internal control structure that, in the auditor’s judgment, could adversely affect the entity’s ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.”

As part of our audit of the Project’s financial position of the Project ID 41098, output 80762 “Small Scale Works and Employment 8 - Phase EGP VIII” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017, we considered UNDP’s internal control structure and compliance with its accounting policies in determining the scope of our audit procedures for the purpose of rendering an opinion on the financial statements. Our purpose was not to provide assurance on the internal control structure.

We emphasize that the responsibility for a sound system of internal controls rests with management and work performed by external audit should not be relied upon to identify all strengths and weaknesses that may exist. Neither should our work be relied upon to identify all circumstances of irregularity should there be any, although our audit procedures have been designed so that any material irregularity has a reasonable probability of discovery.

The matters raised in this part are those which came to our attention during the audit and are not necessarily a comprehensive statement of all the weaknesses that exist or all improvements that might be needed. Recommendations for improvements should be assessed by management for their full commercial impact before they are implemented. Effective implementation of our recommendations by management is important for the maintenance of a reliable internal control system.

Acknowledgment

We wish to express our appreciation for the courtesy and cooperation extended to our representatives during the course of their work.

Jamal Milhem, CPA
Certified Accountant License # (100/98)

License No. 251/1997
Ramallah – Palestine, 26 July 2018
Finding 1: (applicable for the year 2017)

Title:
Un-related expenses and refunds in the current CDR.

Criteria:
UNDP Programme and Operations Policies and Procedures (POPP) stating that the Combined Delivery Report (CDR) should display expenses directly incurred by UNDP on behalf of the project. In addition to that, the general conditions of the agreement signed between the UNDP PAPP and KfW (annex 2) stating that the General Management Support (GMS) should be 7% of construction measures.

Observation:
During the audit, we noticed that, in the previous years, EGP phase VIII had utilized the funds of EGP phase VI and EGP phase IX (Service Contracts-Individuals) and revised them during 2017 by USD 614,150. In addition, EGP phase VI and EGP phase IX had utilized the available funds of EGP phase VIII by USD (613,677) while the refunds were not made in the same accounting period for these phases to present correct expenses, instead, refunds were made during 2017.

This led to overstating the output 80762 expenses in 2017 by USD 473.48.

This was caused by:

a- Shortage in the available funds in EGP phase VIII, EGP phase VI and EGP phase IX when payments were due.

b- Transfers to cover the shortages in EGP phase VIII, EGP phase VI and EGP phase IX were recorded as expenses in the output from which transfers are made and reversals transactions are made when the amounts are refunded.

This has affected the fair statement of expenses in the current year CDR. Moreover, aforementioned reversals led to not presenting the correct total construction measures for each accounting period used on which calculations of GMS are made.

Priority:
High (critical).

Recommendation:
The Office should:

a. Trace any funding or refunding to other projects in order to assess the impact on the project’s CDR.

b. In case of inter-project transactions, ensure necessary reversals are made to the correct projects' accounts and correct accounting periods.

c. Recalculate the GMS in compliance with terms of grant agreement.
Management’s Response:

All reversals have been undertaken where all charges are made accordingly against the correct project phase. UNDP through its internal monitoring mechanism is able to trace all funding and/or refunding of other projects. When closing phases 5 through 9, the donor was aware that UNDP was closing all pending reversals and payments based upon the final contribution deposits that were made by the donor. All reversals were made, including those related to salaries which the donor was aware of and shared with the audit team. In the future, UNDP will be in a position to override in ATLAS and avoid the need to do cumbersome reversals.
Finding 2: (applicable for the year 2016)

Title:
Un-related expenses in the current CDR.

Criteria:
UNDP Programme and Operations Policies and Procedures (POPP) stating that the Combined Delivery Report (CDR) should display expenses directly incurred by UNDP on behalf of the project. In addition to that, the general conditions of the agreement signed between the UNDP PAPP and KfW (annex 2) stating that the General Management Support (GMS) should be 7% of construction measures.

Observation
During the audit, we noticed that, in the previous years, EGP phase VIII had utilized the available funds of EGP phase IX and revised them during 2016 by USD 62,162. This led to overstating the output 80762 expenses in 2017 by USD 62,162, in addition to the miscalculation of the GMS amounting USD 3,585.11.

This was caused by:
a- Shortage in the available funds in EGP phase VIII when payments were due.
b- Transfers to cover the shortages in EGP phase VIII were recorded as expenses in the output from which transfers are made and reversals transactions are made when the amounts are refunded.

This has affected the fair statement of expenses in the current year CDR. Moreover, aforementioned reversals also led to not presenting the correct total construction measures for each accounting period used on which calculations of GMS are made.

Priority
High (critical).

Recommendation
The Office should:
a. Trace any funding or refunding to other projects in order to assess the impact on the project’s CDR.
b. In case of inter-project transactions, ensure necessary reversals are made to the correct projects' accounts and correct accounting periods.
c. Recalculate the GMS in compliance with terms of grant agreement.

Management’s Response:
The difference is based upon the reconciliation of all phases including GMS, your comment is noted and UNDP will ensure that in the future will avoid any similar situation. Due to the accounting system we utilize, GMS is calculated against the entire project. Only during the following year when the CDR for the project is presented in final format, we can do a correction pertaining to the GMS.
### Priorities of Audit Recommendations

<table>
<thead>
<tr>
<th>Priority</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>High (Critical)</strong></td>
<td>Prompt action is required to ensure that UNDP is not exposed to high risks. Failure to take action could result in major negative consequences for UNDP.</td>
</tr>
<tr>
<td><strong>Medium (Important)</strong></td>
<td>Action is required to ensure that UNDP is not exposed to risks. Failure to take action could result in negative consequences for UNDP.</td>
</tr>
<tr>
<td><strong>Low</strong></td>
<td>Action is desirable and should result in enhanced control or better value for money. Low priority recommendations, if any, are dealt with by the audit team directly with the Office management, either during the exit meeting or through a separate memo subsequent to the fieldwork. Therefore, low priority recommendations are not included in this report.</td>

Follow-up on Previous year audit recommendations:

The output ID 86843 “Small Scale Works and employment 9 - Phase EGP IX” was audited in 2015 for FY2014. Audit report no.1502 issued on 11 August 2015 for the output ID 86843 “Small Scale Works and Employment 9 – Phase EGP IX” for the period from 1 January to 31 December 2014 included the following recommendation:

<table>
<thead>
<tr>
<th>Recommendation title</th>
<th>Implementation status</th>
</tr>
</thead>
<tbody>
<tr>
<td>The office should not record transactions belonging to one project under a different project. In exceptional cases where this situation is not avoidable, the refunds should be done during the same period to avoid any impact on the yearly statement of expenditures.</td>
<td>Not implemented. Recommendation is still valid, and the same recommendation was given in the current audit report.</td>
</tr>
</tbody>
</table>

1.2. Audit objectives

A. The objective of the financial audit is to express an opinion on the project’s financial position which include:

1) Expressing an opinion on whether the expenses incurred by the Project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017 and the funds utilization, the accounts receivable and the accounts payable as at 31 December 2017 and as at 31 December 2016 were fairly presented in accordance with UNDP accounting policies and that the expenses incurred were: (i) in conformity with the approved project budgets; (ii) for the approved purposes of the project; (iii) in compliance with the relevant regulations and rules, policies and procedures of UNDP; and (iv) supported by properly approved vouchers and other supporting documents. The Combined Delivery Report (CDR) and the accompanying Funds Utilization statement are the mandatory and official statements upon which the audit opinion should be expressed. Other forms of statement of expenses that may be prepared by a project office are not accepted.

2) Expressing an opinion on whether the statement of fixed assets, at net book value, presents fairly the balance of depreciated assets of the UNDP Project as at 31 December 2017 and as at 31 December 2016. This statement should include all assets available as at 31 December 2017 and as at 31 December 2016 and not only those purchased in the year under audit. Where a DIM project does not have any assets or equipment it will not be necessary to express such an opinion, and

3) Expressing an opinion on whether the statement of cash held by the Project presents fairly the cash and bank balance of UNDP Project as at 31 December 2017 and as at 31 December 2016. Disbursements made against directly implemented project, DIM project are usually financed from the regular country office bank accounts. Exceptionally, a dedicated bank account may be opened and used solely for the cash transactions of a DIM project, e.g. if the project is in a remote location. It is required to express an opinion on the Statement of Cash only where a dedicated bank account for the DIM project has been established. In cases where the cash transactions of the audited DIM project are made through the country office bank accounts, this type of opinion is not required.

B. Providing the progress made in implementing the recommendations raised in a previous year audit report (if any).

The financial audit was conducted in accordance with the International Standards on Auditing (ISA), the 700 series
1.3. **Scope of Audit:**

The scope of the audit relates only to transactions concluded and recorded against the UNDP DIM project for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017.

The scope of the audit did not include:

- Activities and expenses incurred or undertaken at the level of “responsible parties”; and

- Expenses processed and approved in locations outside the country such as UNDP Regional Centres and UNDP Headquarters and where the supporting documentation is not retained at the level of the UNDP office.
2. PART II – FINANCIAL AUDIT REPORTS

2.1. Auditor’s Report on Financial Position for the year 2017

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 - output ID 86843 “Small Scale Works and Employment 9 – Phase EGP IX”, for the period from 1 January to 31 December 2017, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for opinion section of our report, the accompanying CDR and Funds Utilization statement do not present fairly the expenses of USD 182,039.21 directly incurred by the UNDP PAPP and charged to the project for the period from 1 January to 31 December 2017.

Basis for Adverse Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- The current Combined Delivery Report (CDR) is overstated by an amount of USD 176,947 due to funding/ refunding some amounts from other phases.
- The current GMS included in the CDR were not correctly calculated according to signed agreement (i.e. 7% of construction measures) which led to overstatement of the GMS in the current CDR by an amount of USD 5,092.

Management Responsibilities

Management is responsible for the preparation and fair presentation of the of the CDR and the Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
Financial audit of Project ID 41098 – Output ID: 86843 “Small Scale Works and Employment 9 – Phase EGP IX” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017

**Auditor’s Responsibilities**

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

23 May 2018
2.3. Auditor’s Report on Financial Position for the year 2016

Independent Auditor’s Report on the Project Financial position of UNDP DIM Project ID 41098 – Output ID 86843 “Project Title Poverty-Oriented infrastructure–West Bank and Gaza (EGP IX)”

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 - output ID 86843 “Small Scale Works and Employment 9 – phase EGP IX”, for the period from 1 January to 31 December 2016, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for opinion section of our report, the accompanying CDR and Funds Utilization statement do not present fairly the expenses of USD (18,687) for 2016 and directly incurred by the UNDP PAPP and charged to the project for the period from 1 January to 31 December 2016.

Basis for Adverse Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

− The current GMS included in the CDR were not correctly calculated according to signed agreement (i.e. 7% of construction measures) which led to understate the GMS in the current CDR by an amount of USD 18,687.

Management Responsibilities

Management is responsible for the preparation and fair presentation of the CDR and Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.
Auditor’s Responsibilities

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

3. PART III: MANAGEMENT LETTER

3.1 Current years audit findings and recommendations

To the Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

Introduction

Under International Standards on Auditing, auditors are encouraged to report various matters concerning an entity’s internal control structure noted during their audit, and are required to report certain of those matters. Matters that are required to be reported are “significant deficiencies in the design or operation of the internal control structure that, in the auditor’s judgment, could adversely affect the entity’s ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.”

As part of our audit of the Project’s financial position of the Project ID 41098, output ID 86843 “Small Scale Works and Employment 9 – Phase EGP IX” for the period from 1 January to 31 December 2016 and for the period from 1 January to 31 December 2017, we considered UNDP’s internal control structure and compliance with its accounting policies in determining the scope of our audit procedures for the purpose of rendering an opinion on the financial statements. Our purpose was not to provide assurance on the internal control structure.

We emphasize that the responsibility for a sound system of internal controls rests with management and work performed by external audit should not be relied upon to identify all strengths and weaknesses that may exist. Neither should our work be relied upon to identify all circumstances of irregularity should there be any, although our audit procedures have been designed so that any material irregularity has a reasonable probability of discovery.

The matters raised in this part are those which came to our attention during the audit and are not necessarily a comprehensive statement of all the weaknesses that exist or all improvements that might be needed. Recommendations for improvements should be assessed by management for their full commercial impact before they are implemented. Effective implementation of our recommendations by management is important for the maintenance of a reliable internal control system.

Acknowledgment

We wish to express our appreciation for the courtesy and cooperation extended to our representatives during the course of their work.

Jamal Milhem, CPA
Certified Accountant License # (100/98)
Talal Abu –Ghazaleh & Co.
License No. 251/1997
Ramallah – Palestine, 26 July 2018
Finding 1: (applicable for the year 2017)

Title:
Un-related expenses and refunds in the current CDR.

Criteria:
UNDP Programme and Operations Policies and Procedures (POPP) stating that Combined Delivery Report (CDR) should display expenses directly incurred by UNDP on behalf of the project. In addition, the general conditions of the agreement signed between the UNDP PAPP and KfW (annex 2) stating that the GMS should be 7% of construction measures.

Observation
During the audit, we noticed that, EGP phase IX had used other projects funds in the previous years (construction and salaries) and were revised when refunded in 2017 by USD 1,135,658. In addition, other outputs had utilized available EGP phase IX fund while the refunds were not made in the same accounting period for these outputs to present correct expenses, instead, refunds were made during 2017 by USD (958,711). Accordingly, there were General Management Support (GMS) reversals by USD 5,092 leading to non-complying with the GMS calculated in the signed agreement.

- Details of reversals transactions are as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>USD Amount (in Totals)</th>
<th>Effect</th>
</tr>
</thead>
<tbody>
<tr>
<td>EGP phase IX has made use of funds in EGP phase VI, phase VIII and phase X in the previous years and revised them in 2017 (Reversals)</td>
<td>1,135,658</td>
<td>Overstated the expenses in the CDR</td>
</tr>
<tr>
<td>EGP phase VIII made use of availability of EGP phase IX fund and the reversals were not made in the same accounting period for these outputs instead reversals were made in 2017. (Reversals)</td>
<td>(958,711)</td>
<td>Understated the expenses in the CDR</td>
</tr>
<tr>
<td>Net Reversals</td>
<td>176,947</td>
<td></td>
</tr>
<tr>
<td>GMS Reversals</td>
<td>5,092</td>
<td>Overstated the expenses in the CDR</td>
</tr>
<tr>
<td><strong>Total Overstatement in CDR</strong></td>
<td><strong>182,039</strong></td>
<td></td>
</tr>
</tbody>
</table>

This was caused by:

a- Shortage in the available funds in EGP phase VIII and EGP phase IX when payments were due.

b- Transfers to cover the shortages in EGP phase VIII and EGP phase IX were recorded as expenses in the project from which transfers are made and reversals transactions are made when the amounts are refunded.

This has affected the fair statement of expenses in the current year CDR.

Priority
High (critical).
**Recommendation**

The office should:

a) Trace any funding or refunding to other projects in order to assess the impact on the project’s CDR.

b) In case of inter-project transactions, ensure necessary reversals are made to the correct projects' accounts and in the correct accounting periods.

**Management’s Response:**

All reversals have been undertaken where all charges are made accordingly against the correct project phase. UNDP through its internal monitoring mechanism is able to trace all funding and/or refunding of other projects. When closing phases 5 through 9, the donor was aware that UNDP was closing all pending reversals and payments based upon the final contribution deposits that were made by the donor. All reversals were made, including those related to salaries which the donor was aware of and shared with the audit team.
Finding 2: (applicable for the year 2016)

Title:
Miscalculation of General Management Support (GMS).

Criteria:
The general conditions of the agreement signed between the UNDP/PAPP and KfW (annex 2) stating that the GMS should be 7% of construction measures.

Observation
During our audit, we noticed that the GMS expenses did not present correctly 7% of the construction measures according to the project agreement.

Since the amount of construction in 2016 CDR is Zero, the amount of the GMS in the current CDR should be equals to Zero but the amount of the GMS that appears in the Current CDR is USD (18,687) due to GMS reversals.

The construction expense (Account No. 72105) in the CDR include many reversal transactions leading to not presenting the correct total construction measures for each accounting period used on which calculations of GMS are made causing for this miscalculation.

Not complying with the calculation in the signed agreement without making reversals in the same accounting period affects the expenses in the current CDR.

Priority
High (Critical)

Recommendation
The office should recalculate the GMS in compliance with terms of grant agreement.

Management’s Response:
The difference is based upon the reconciliation of all phases including GMS, your comment is noted and UNDP will ensure that in the future will avoid any similar situation. Due to the accounting system we utilize, GMS is calculated against the entire project. Only during the following year when the CDR for the project is presented in final format, we can do a correction pertaining to the GMS.
### Priorities of Audit Recommendations

<table>
<thead>
<tr>
<th>Priority</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>High (Critical)</strong></td>
<td>Prompt action is required to ensure that UNDP is not exposed to high risks. Failure to take action could result in major negative consequences for UNDP.</td>
</tr>
<tr>
<td><strong>Medium (Important)</strong></td>
<td>Action is required to ensure that UNDP is not exposed to risks. Failure to take action could result in negative consequences for UNDP.</td>
</tr>
<tr>
<td><strong>Low</strong></td>
<td>Action is desirable and should result in enhanced control or better value for money. Low priority recommendations, if any, are dealt with by the audit team directly with the Office management, either during the exit meeting or through a separate memo subsequent to the fieldwork. Therefore, low priority recommendations are not included in this report.</td>

</table>

Follow-up on Previous year audit recommendations:

The output ID 93278 was not audited in the prior year; accordingly, no follow up procedures were required to be performed.

Sincerely yours,

Jamal Milhem, CPA  
Certified Accountant License # (100/98)

Talal Abu –Ghazaleh & Co.  
License No. 251 1997  
Ramallah - Palestine, 26 July 2018
1.2. Audit objectives

A. The objective of the financial audit is to express an opinion on the project’s financial position which include:

1) Expressing an opinion on whether the expenses incurred by the project for the year from 1 January to 31 December 2016 and for the year from 1 January to 31 December 2017 and the funds utilization, the accounts receivable and the accounts payable as at 31 December 2017 and as at 31 December 2016 were fairly presented in accordance with UNDP accounting policies and that the expenses incurred were: (i) in conformity with the approved project budgets; (ii) for the approved purposes of the project; (iii) in compliance with the relevant regulations and rules, policies and procedures of UNDP; and (iv) supported by properly approved vouchers and other supporting documents. The Combined Delivery Report (CDR) and the accompanying Funds Utilization statement are the mandatory and official statements upon which the audit opinion should be expressed. Other forms of statement of expenses that may be prepared by a project office are not accepted.

2) Expressing an opinion on whether the statement of fixed assets, at net book value, presents fairly the balance of depreciated assets of the UNDP Project as at 31 December 2017 and as at 31 December 2016. This statement should include all assets available as at 31 December 2017 and as at 31 December 2016 and not only those purchased in the year under audit. Where a DIM project does not have any assets or equipment it will not be necessary to express such an opinion, and

3) Expressing an opinion on whether the statement of cash held by the Project presents fairly the cash and bank balance of UNDP Project as at 31 December 2017 and as at 31 December 2016. Disbursements made against directly implemented project, DIM project are usually financed from the regular country office bank accounts. Exceptionally, a dedicated bank account may be opened and used solely for the cash transactions of a DIM project, e.g. if the project is in a remote location. It is required to express an opinion on the Statement of Cash only where a dedicated bank account for the DIM project has been established. In cases where the cash transactions of the audited DIM project are made through the country office bank accounts, this type of opinion is not required.

B. Providing the progress made in implementing the recommendations raised in a previous year audit report (if any).

The financial audit was conducted in accordance with the International Standards on Auditing (ISA), the 700 series.
1.3. Scope of Audit:

The scope of the audit relates only to transactions concluded and recorded against the UNDP DIM project for the year from 1 January to 31 December 2016 and for the year from 1 January to 31 December 2017.

The scope of the audit did not include:

- Activities and expenses incurred or undertaken at the level of “responsible parties”; and

- Expenses processed and approved in locations outside the country such as UNDP Regional Centres and UNDP Headquarters and where the supporting documentation is not retained at the level of the UNDP office.
2. PART II – FINANCIAL AUDIT REPORTS

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 - output ID 93278 “Small Scale Works Employment 10 – phase EGP X”, for the year from 1 January to 31 December 2017, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Qualified Opinion

In our opinion, except for the effects of the matter described in the basis for qualified opinion section of our report, the accompanying Combined Delivery Report (CDR) and Funds Utilization statement present fairly, in all material respects, the expenses of USD 3,172,992.39 directly incurred by the UNDP PAPP and charged to the project for the year from 1 January to 31 December 2017 in accordance with UNDP accounting policies and were: (i) in conformity with the approved project budgets; (ii) for the approved purposes of the project; (iii) in compliance with the relevant regulations and rules, policies and procedures of UNDP; and (iv) supported by properly approved vouchers and other supporting documents.

Basis for Qualified Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- The total of current Combined Delivery Report (CDR) is understated by an amount of USD 439,631 due to the funding, refund of some amounts from or to other phases or projects.
- The current GMS included in the CDR were not correctly calculated according to signed agreement (i.e. 8% of construction measure) which led to overstate the GMS in 2017’s CDR by an amount of USD 48,372.
Management Responsibilities

Management is responsible for the preparation and fair presentation of the CDR and the Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibilities

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

2.3 Auditors Report on the Statement of Fixed Assets for the year 2017:

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the accompanying statement of fixed assets of the UNDP project ID 41098 - output ID 93278 – “Small Scale Works Employment 10 – Phase EGP X” as at 31 December 2017.

Unmodified Opinion
In our opinion, the accompanying statement of fixed assets presents fairly in all material respects the assets status of the UNDP project ID 41098 - output ID 93278 - “Small Scale Works Employment 10 – Phase EGP X”, amounting to USD 3,713.86 as at 31 December 2017 in accordance with UNDP accounting policies.

Basis for opinion
We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the statement of fixed assets. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management Responsibilities
Management is responsible for the preparation of the Statement of fixed assets of the project and for such internal control as management determines is necessary to enable the preparation of the statement of fixed assets that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibilities for the audit
Our objectives are to obtain reasonable assurance about whether the statement of fixed assets is free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.
As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the statement of fixed assets, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

2.5 Auditor’s Report on Financial Position for the year 2016:

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the financial position of the UNDP project ID 41098 - output ID 93278 “Small Scale Works Employment 10 – Phase EGP X”, for the year from 1 January to 31 December 2016, which include: (a) the accompanying Combined Delivery Report (CDR); (b) the Funds Utilization statement (the statement); and (c) the project-related accounts receivable and accounts payable.

Qualified Opinion

In our opinion, except for the effects of the matter described in the basis for qualified opinion section of our report, the accompanying Combined Delivery Report (CDR) and Funds Utilization statement present fairly, in all material respects, the expenses of USD 1,794,421.44 for 2016 directly incurred by the UNDP PAPP and charged to the project for the year from 1 January to 31 December 2016 in accordance with UNDP accounting policies and were: (i) in conformity with the approved project budgets; (ii) for the approved purposes of the project; (iii) in compliance with the relevant regulations and rules, policies and procedures of UNDP; and (iv) supported by properly approved vouchers and other supporting documents.

Basis for Qualified Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the CDR and Funds Utilization section of our report. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- The current Combined Delivery Report (CDR) is understated by an amount of USD 332.8 for the year 2016 due to the refund of some amounts to other phases.
- The current GMS included in the CDR were not correctly calculated according to signed agreement (i.e. 8% of construction measure) which led to understate the GMS in 2016 CDR by an amount of USD 30,753
Management Responsibilities

Management is responsible for the preparation and fair presentation of the CDR and the Funds Utilization statement of the project and for such internal control as management determines is necessary to enable the preparation of a CDR and Funds Utilization statement that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibilities

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

2.7 Auditors Report on the Statement of Fixed Assets for the year 2016:

“Small Scale Works Employment 10 – Phase EGP X”

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

We have audited the accompanying statement of fixed assets of the UNDP project ID 41098 - output ID 93278 – “Small Scale Works Employment 10 – phase EGP X” as at 31 December 2016.

Unmodified Opinion

In our opinion, the accompanying statement of fixed assets presents fairly in all material respects the assets status of the UNDP project ID 41098 - output ID 93278 - “Small Scale Works Employment 10 – phase EGP X”, amounting to USD 4,056.68 as at 31 December 2016 in accordance with UNDP accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those provisions and standards are further described in the auditor’s responsibilities for the audit of the statement of fixed assets. We are independent of UNDP in accordance with the International Ethics Standards Board of Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with this code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management Responsibilities

Management is responsible for the preparation of the Statement of fixed assets of the project and for such internal control as management determines is necessary to enable the preparation of the statement of fixed assets that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibilities for the audit

Our objectives are to obtain reasonable assurance about whether the statement of fixed assets is free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.
As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the statement of fixed assets, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization’s internal control.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

3. PART III: MANAGEMENT LETTER

3.1 Current years audit findings and recommendations

To The Director of the Office of Audit and Investigations (OAI)
United Nations Development Programme (UNDP)

Introduction

Under International Standards on Auditing, auditors are encouraged to report various matters concerning an entity’s internal control structure noted during their audit and are required to report certain of those matters. Matters that are required to be reported are “significant deficiencies in the design or operation of the internal control structure that, in the auditor’s judgment, could adversely affect the entity’s ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.”

As part of our audit of the Project’s financial position of the Project ID 41098 - output ID 93278 “Small Scale Works Employment 10 – phase EGP X” for the year from 1 January to 31 December 2016 and for the year from 1 January to 31 December 2017, we considered UNDP’s internal control structure and compliance with its accounting policies in determining the scope of our audit procedures for the purpose of rendering an opinion on the financial statements. Our purpose was not to provide assurance on the internal control structure.

We emphasize that the responsibility for a sound system of internal controls rests with management and work performed by external audit should not be relied upon to identify all strengths and weaknesses that may exist. Neither should our work be relied upon to identify all circumstances of irregularity should there be any, although our audit procedures have been designed so that any material irregularity has a reasonable probability of discovery.

The matters raised in this part are those which came to our attention during the audit and are not necessarily a comprehensive statement of all the weaknesses that exist or all improvements that might be needed. Recommendations for improvements should be assessed by management for their full commercial impact before they are implemented. Effective implementation of our recommendations by management is important for the maintenance of a reliable internal control system.

Acknowledgment

We wish to express our appreciation for the courtesy and cooperation extended to our representatives during the course of their work.

Jamal Milhem, CPA
Certified Accountant License # (100/98)

Talal Abu –Ghazaleh & Co.
License No. 251/1997
Ramallah – Palestine, 26 July 2018
Finding 1: (applicable for the year 2017)

Title:
Un-related expenses and refunds in the current CDR.

Criteria:
UNDP Programme and Operations Policies and Procedures (POPP) states that the Combined Delivery Report (CDR) should display expenses directly incurred by UNDP on behalf of the project.

Observation
During the audit, we noticed that:

a. In previous years, EGP phase VI and phase IX had utilized available EGP X fund while the refunds were not made in the same accounting period for these outputs to present correct expenses, instead, refunds were made during 2017. This led to understating the output 93278 expenses in 2017 by USD 170,670.

The table below are the detailed amounts of reversals for construction expenses:

<table>
<thead>
<tr>
<th>Voucher No.</th>
<th>Account no.</th>
<th>Account description</th>
<th>USD Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>00101469</td>
<td>72105</td>
<td>SVC-CO-Construction Engineer</td>
<td>1,113</td>
</tr>
<tr>
<td>00102119</td>
<td>72105</td>
<td>SVC-CO-Construction Engineer</td>
<td>147,904</td>
</tr>
<tr>
<td>00101520</td>
<td>72105</td>
<td>SVC-CO-Construction Engineer</td>
<td>21,654</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td></td>
<td></td>
<td><strong>170,670</strong></td>
</tr>
</tbody>
</table>

b. The account No. 71405 (service contracts-individuals) in the CDR has been reduced by USD 273,502 due to use of remaining fund of EGP phase VI, phase VII and phase IX by USD 273,502 for the project expenses.

c. Khan Al Wakaleh Inauguration project had utilized the available fund in the current EGP phase X fund during 2017 by USD 4,541 without reimbursement of such amounts till 31 December 2017 and without obtaining approval from the donor. This led to overstating the output ID 93278 expenses in 2017 by USD 4,541.

The Net Financial Impact of the above is understating of the CDR by USD 439,631.

This was caused by:

a. Shortage in the available funds in EGP phase VI, phase VII, phase IX and Khan Al Wakaleh Inauguration project when payments were due.

b. Transfers to cover the shortages in EGP phase VI, phase VII and phase IX were recorded as expenses in the output from which transfers are made and reversals transactions are made when the amounts are refunded.

This has affected the fair statement of expenses in the current year CDR and considered a noncompliance with funding agreements.

Priority
High (Critical).

Recommendation
The Office should:

a) Trace any funding or refunding to other projects in order to assess the impact on the project’s CDR.
b) In case of inter-project transactions, ensure necessary reversals are made to the correct projects' accounts and correct accounting periods.

c) Obtain the donor’s approval for transfers of project fund to other project or phases.

Management’s Response:

Management will follow the guidance of the audit to the best possible and address the shortfalls as pointed out. All reversals have been undertaken where all charges are made accordingly against the correct project phase. UNDP through its internal monitoring mechanism is able to trace all funding and/or refunding of other projects.
Finding 2: (applicable for the year 2016)

Title:
Un-related expenses and refunds in the current CDR.

Criteria:
UNDP Programme and Operations Policies and Procedures (POPP) stating that the Combined Delivery Report (CDR) should display expenses directly incurred by UNDP on behalf of the project.

Observation
During the audit, we noticed that, EGP phase X had utilized the fund in Jericho Park Industrial Support (JAIP 6) in the previous years (toner, stationery, etc.) and revised them in 2016 as shown below:

<table>
<thead>
<tr>
<th>Voucher No.</th>
<th>Account no.</th>
<th>Account description</th>
<th>USD Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>91432</td>
<td>74525</td>
<td>Sundry</td>
<td>960.86</td>
</tr>
<tr>
<td>91432</td>
<td>74525</td>
<td>Sundry</td>
<td>163.34</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td></td>
<td></td>
<td><strong>1,124.2</strong></td>
</tr>
</tbody>
</table>

Moreover, EGP phase VI had utilized available EGP phase X fund while the reversals were not made in the same accounting period for these outputs to present correct expenses, instead, reversals were made during 2016, as shown below:

<table>
<thead>
<tr>
<th>Voucher No.</th>
<th>Account no.</th>
<th>Account description</th>
<th>USD Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>92027</td>

<tr>
<td>92034</td>
<td>72105</td>
<td>SVC-CO-Construction Engineer</td>
<td>(650)</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td></td>
<td></td>
<td><strong>(1,457)</strong></td>
</tr>
</tbody>
</table>

This was caused by:
a- Shortage in the available funds in EGP phase VI and EGP phase X when payments were due.
b- Transfers to cover the shortages in EGP phase VI and EGP phase X were recorded as expenses in the output from which transfers are made and reversals transactions are made when the amounts are refunded.

This has affected the fair statement of expenses in the current year CDR

Priority
Medium (Important)

Recommendation
The Office should:
a) Trace any funding or refunding to other projects in order to assess the impact on the project’s CDR.
b) In case of inter-project transactions, ensure necessary reversals are made to the correct projects’ accounts and correct accounting periods.

Management’s Response:
Management will follow the guidance of the audit to the best possible and address the shortfalls as pointed out. All reversals have been undertaken where all charges are made accordingly against the correct project phase. UNDP through its internal monitoring mechanism is able to trace all funding and/or refunding of other projects.
**Finding 3: (applicable for the year 2016 & 2017)**

**Title:**
Miscalculation of General Management Support (GMS).

**Criteria:**
The general conditions of the agreement signed between the UNDP/PAPP and KfW (annex 2) stating that the GMS should be 8% of construction measures.

**Observation**
During our audit, we noticed that the GMS amount recorded in the CDR was not correctly calculated according to the agreement conditions.

- The table below may explain further details:

<table>
<thead>
<tr>
<th>Item</th>
<th>2016</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>USD</td>
<td>USD</td>
</tr>
<tr>
<td>Construction amount in the CDR</td>
<td>1,082,829</td>
<td>3,031,230</td>
</tr>
<tr>
<td>GMS percentage</td>
<td>8%</td>
<td>8%</td>
</tr>
<tr>
<td>GMS calculation</td>
<td>86,626</td>
<td>242,498</td>
</tr>
<tr>
<td>GMS – recorded in the CDR (Account No. 75105)</td>
<td>(117,379)</td>
<td>(194,126)</td>
</tr>
<tr>
<td>Difference</td>
<td>(30,753)</td>
<td>48,372</td>
</tr>
</tbody>
</table>

The reason for this miscalculation is that the construction expense (Account No. 72105 and 72120) in the CDR include many reversal transactions leading to not presenting the correct total construction measures for each accounting period which are used in the calculations of GMS.

Noncompliance with agreement conditions and making reallocation in the same period led to understate or overstate the expenses in the current CDR.

**Priority**
Medium (Important)

**Recommendation**
The office should recalculate the GMS in compliance with terms of grant agreement.

**Management’s Response:**
Management will follow the guidance of the audit to the best possible and address the shortfalls as pointed out.

The UNDP Atlas system assigns the General Management Services (GMS) to the overall project activities and cannot be charged exclusively to certain activities. In the case of the KFW grants, GMS is to be charged to the direct costs and not to be charged to project implementation unit and other operational costs. This correction for the charging as per the signed agreements is done manually at the end of each fiscal year.
## Priorities of Audit Recommendations

<table>
<thead>
<tr>
<th>Level</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>High (Critical)</strong></td>
<td>Prompt action is required to ensure that UNDP is not exposed to high risks. Failure to take action could result in major negative consequences for UNDP.</td>
</tr>
<tr>
<td><strong>Medium (Important)</strong></td>
<td>Action is required to ensure that UNDP is not exposed to risks. Failure to take action could result in negative consequences for UNDP.</td>
</tr>
<tr>
<td><strong>Low</strong></td>
<td>Action is desirable and should result in enhanced control or better value for money. Low priority recommendations, if any, are dealt with by the audit team directly with the Office management, either during the exit meeting or through a separate memo subsequent to the fieldwork. Therefore, low priority recommendations are not included in this report.</td>
