Report No. 2524

Issue Date: 18 August 2022

Report on the Audit of Joint Programme on Local Governance and Decentralised Service Delivery (JPLG III) Implemented by UNDP Somalia (Project No. 107529, Output No. 107811) Executive Summary

The UNDP Office of Audit and Investigations (OAI), through Talal Abu-Ghazaleh & Co. (the audit firm), from 14 June to 6 July 2022, conducted an audit of 'Joint Programme of Local Governance and Decentralised Service Delivery' (Project No. 107529, Output No. 107811) (the Project), which is directly implemented and managed by the UNDP Country Office in Somalia (the Office). This was the first audit of the Project.

The audit firm conducted a financial audit in accordance with the International Standards of Auditing (ISA), the 700 series, to express an opinion on whether the financial statements present fairly, in all material aspects, the Project's operations. The audit covered the Project's Combined Delivery Report, which includes expenses for the period from 1 January to 31 December 2021 and the accompanying Funds Utilization statement¹ as of 31 December 2021. The audit did not include activities and expenses incurred or undertaken at the "responsible party" level and covered under HACT audit, or expenses processed and approved in locations outside of the country (such as UNDP Regional Centres and UNDP Headquarters). The audit did not cover the Statement of Assets as no assets were held by the Project. In addition, the audit did not cover the Statement of Cash as no separate bank account was established and maintained for the Project.

The audit was conducted under the general supervision of OAI in conformance with the *International Standards for the Professional Practice of Internal Auditing* of The Institute of Internal Auditors (The IIA).

Audit results

Based on the audit report and corresponding management letter submitted by the audit firm, the results are summarized in the table below:

	Proje	ct Expenses*	
Amount (in \$ '000)	Opinion	NFM** (in \$ '000)	Impact on CDR
2,938	Unmodified	27	Overstatement

*Expenses recorded in the Combined Delivery Report were \$4,418,330. Excluded from the audit scope were transactions that relate to expenses processed and approved by other UNDP offices outside of the country (\$799,305). Also excluded were expenses incurred at the "responsible party" level (\$680,575), which included \$626,817 that were subject to a separate audit conducted by external auditors that resulted in an unmodified opinion.

***Included in the audit scope were transactions that relate to expenses incurred at the "responsible party" level (\$2,144,961) as these were not covered under HACT audits and all related supporting documents were available for review at the level of the UNDP Country Office in Somalia.

**** There was a Net Financial Misstatement (NFM) of \$27,515 but it did not affect the audit opinion as it was not considered to be financially material.

^{**}NFM= Net Financial Misstatement

¹ The Funds Utilization statement includes the balance, as at a given date, of five items: (a) outstanding advances received by the project; (b) undepreciated fixed assets used at the project level; (c) inventory held at the project level; (d) prepayments made by the project; and (e) outstanding commitments held at the project level.

Management's Responsibility

Management is responsible for the preparation of the CDR and the Funds Utilization Statement of the project and for such internal controls as management determines are necessary to enable the preparation of a CDR and Funds Utilization statement that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the CDR and the Funds Utilization statement are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these documents.

As part of an audit in accordance with ISA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the CDR and Funds Utilization statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal controls.

We communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identified during our audit.

3. PART III: MANAGEMENT LETTER

3.1. Current year Audit Findings and Recommendations

To the Director of the Office of Audit and Investigations (OAI) **United Nations Development Programme (UNDP)**

Under International Standards on Auditing, auditors are encouraged to report various matters concerning an entity's internal control structure noted during their audit and are required to report certain of those matters. Matters that are required to be reported are "significant deficiencies in the design or operation of the internal control structure that, in the auditor's judgment, could adversely affect the entity's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements".

As part of our audit of the Project's financial position of "Joint Programme on Local Governance and Decentralised Service Delivery (JPLG III)" Project ID 00107529 -Output ID 00107811 for the period from 1 January to 31 December 2021, we considered UNDP's internal control structure and compliance with its accounting policies in determining the scope of our audit procedures for the purpose of rendering an opinion on the financial statements. Our purpose was not to provide assurance on the internal control structure.

We emphasize that the responsibility for a sound system of internal controls rests with management and work performed by external audit should not be relied upon to identify all strengths and weaknesses that may exist, neither should our work be relied upon to identify all circumstances of irregularity should there be any, although our audit procedures have been designed so that any material irregularity has a reasonable probability of discovery.

The matters raised in this part are those which came to our attention during the audit and are not necessarily a comprehensive statement of all the weaknesses that exist or all improvements that might be needed. Recommendations for improvements should be assessed by management for their full business impact before they are implemented. Effective implementation of our recommendations by management is important for the maintenance of a reliable internal control system.

Acknowledgment

We wish to express our appreciation for the courtesy and cooperation extended to our representatives during the course of their work.

Finding No. 1:

Title:

Not Reporting the Project's Expenses in the Correct Accounting Period

Criteria:

In accordance with IPSAS, UNDP expense policy follows the accrual basis of accounting, under which transactions and events are recognized as they occur (and not only when cash or its equivalent is received or paid). The transactions and events are recorded in the accounting records and recognized in the financial statements of the periods to which they relate when goods or services are received and accepted by UNDP and a corresponding liability to pay is created.

As UNDP has to comply with IPSAS, Offices should ensure any anticipated expenses before closing the year are recorded through the accrual system using the correct accounting year. Further, in accordance with UNDP POPP, it is important that the receipts be entered promptly in the ATLAS when the goods and services are actually received. It is mandatory to enter receipts in the ATLAS within 48 hours of actual receipt of goods and services, so that the expense and assets recognitions are done correctly in accordance with the UNDP accounting policy.

Observation

During the audit, we noticed that the office recorded an amount of US\$ 25,715.00 in the FY 2021 CDR although this amount represents expenses related to services that were provided in FY 2020.

Details are shown in the following table:

Invoice Date	Voucher No.	Amounts US\$
27 November 2020	SOM10-00151677-1-1-ACCR-DST	9,450.00
26 November 2020	SOM10-00152605-1-1-ACCR-DST	6,035.00
20 December 2020	SOM10-00156529-1-1-ACCR-DST	6,130.00
16 November 2020	SOM10-00154964-1-1-ACCR-DST	4,100.00
Total		25,715.00
GMS (Facilities and	Admin) %7	1,800.05
Net Financail Impact	27,515.05	

This occurred since the office could not raise the receipts in FY2020 as the supporting documents were not available at that time yet. The office raised the receipts in Atlas only after receiving the supporting documents in FY2021.

Not charging the project's expenditures to the correct accounting period (FY 2020) led to the overstatement of the expenses in the current CDR (FY 2021) by US\$ 25,715.00. This also led to an overstatement of the GMS (Facilities and Admin) included in the current CDR by US\$ 1,800.05.

The net financial impact is an Overstatemnt of the current CDR by US\$ 27,515.05.

Priority

Medium (Important).

Recommendation

The office should record the expenses related to the project during the accounting period where services were provided, and in case there was delay in receiving the related supporting documents, the office should record the estimates for any anticipated expenses before closing the year through the accrual system using the correct accounting year.

Management's Response:

Under the International Public Sector Accounting Standards (IPSAS), accrual basis accounting involves the recognition of transactions when they occur, meaning all UNDP under DIM are recorded and reported in the financial statements of the financial period to which they relate, and not only when cash or its equivalent is received or paid. However, the Responsible Parties have not adopted IPSAS and are not IPSAS compliant. As a result, they are working on a cash basis and have no system to report to UNDP on accrual bases.

Therefore, all UNDP transactions reported on DIM are on an accrual basis. Still, the expenditure report under Letter of Agreements (LoA), which follow government rules, is not, and expenses are recognized when the FACE Forms are received and recorded.

The office will closely monitor payment submissions to ensure they are recorded in the correct period and continuous training of Responsible Parties officers will be provided to ensure compliance with the necessary requirements / supporting documents. In case of deviation (late / incomplete documents beyond the payment cut-off date) we will flag the anomaly to our quality assurance unit in the office for advise and escalation.

Priorities of Audit Recommendations

High (Critical)	Prompt action is required to ensure that UNDP is not exposed to high risks. Failure to take action could result in major negative consequences for UNDP.
Medium (Important)	Action is required to ensure that UNDP is not exposed to risks. Failure to take action could result in negative consequences for UNDP.
Low	Action is desirable and should result in enhanced control or better value for money. Low priority recommendations, if any, are dealt with by the audit team directly with the Office management, either during the exit meeting or through a separate memo subsequent to the fieldwork. Therefore, low priority recommendations are not included in this report.
