AUDIT

OF

UNDP TURKMENISTAN

GRANTS FROM THE GLOBAL FUND TO FIGHT AIDS, TUBERCULOSIS AND MALARIA

Report No. 1410

Issue Date: 26 December 2014
Report on the audit of UNDP Turkmenistan
Grants from the Global Fund to Fight AIDS, Tuberculosis and Malaria
Executive Summary

The UNDP Office of Audit and Investigations (OAI), from 8 to 15 September 2014, conducted an audit of one grant from the Global Fund to Fight AIDS, Tuberculosis and Malaria (Global Fund) (Output No. 60163 [TB]) managed by UNDP Turkmenistan (the Office) as the Principal Recipient. The audit aimed to assess the adequacy and effectiveness of the governance, risk management and control processes relating to the following areas and sub-areas:

(a) governance and strategic management (organizational structure, staffing, capacity development and exit strategy);
(b) programme management (project approval and implementation, monitoring and evaluation);
(c) Sub-recipient management (selection, assessment and contracting, funding, reporting, oversight and monitoring);
(d) procurement and supply management (qualification and forecasting, procurement of health products, quality assurance of health products, procurement of other goods and services, supply management [inventory, warehousing and distribution], asset management, individual contractors); and
(e) financial management (revenue and accounts receivable, expenditures, reporting to the Global Fund).

The audit covered the Global Fund-related activities of the Office from 1 January 2013 to 30 June 2014. The Office recorded Global Fund-related expenditures totalling $4.7 million. This was the first audit of the Office’s Global Fund-related activities.

The audit was conducted in conformance with the International Standards for the Professional Practice of Internal Auditing.

Overall audit rating

OAI assessed the Office’s management of the Global Fund grants as satisfactory, which means, “Internal controls, governance and risk management processes were adequately established and functioning well. No issues were identified that would significantly affect the achievement of the objectives of the audited entity.”

Key recommendations: Total = 4, high priority = 0

The audit did not result in any high (critical) priority recommendations. There are four medium (important) priority recommendations, which means, “Action is required to ensure that UNDP is not exposed to risks that are considered moderate. Failure to take action could contribute to negative consequences for UNDP.” These recommendations include actions to address the sustainability of the grant activities; the difficulties in operating the ventilation system in the bacteriological laboratory; the delays in installing laboratory equipment; and the weak stock management and storage conditions.

Management comments and action plan

The Resident Representative accepted all of the recommendations and is in the process of implementing them. Comments and/or additional information provided have been incorporated into the report, where appropriate.
Issues with less significance (not included in this report) have been discussed directly with management and actions have been initiated to address them.
